

Assignment 2 - Interviewing UX Professionals

Objective:

To gain an understanding of the UX design process, best practices, and industry insights from professionals in the field.

Instructions:

1. Identify a UX professional to interview. This can be someone you know or someone you have found online.
2. Prepare a list of 10-15 questions to ask the professional about their work, experience, and insights in UX design.
3. Schedule a time for the interview, either in person or virtually.
4. During the interview, take notes on the professional's responses and ask follow-up questions as necessary.
5. After the interview, write a summary of the key insights and takeaways from the conversation.
6. Reflect on how the interview has informed your understanding of UX design and how you can apply these insights to your future work.

Guidelines:

- Your questions should be open-ended and focus on the professional's experiences and perspectives. Avoid asking yes/no questions.
- Your questions should also demonstrate your understanding of UX design and show that you have done some research in advance.
- Your summary should be well-structured, organized, and include specific examples and quotes from the interview.

Deliverables:

- A list of questions for the interview
- Notes from the interview
- A written summary of the key insights and takeaways from the conversation.
- A reflection on how the interview has informed your understanding of UX design and how you can apply these insights to your future work

Submission:

Submit your report prior to the due date and time listed in Sakai. Acceptable submissions include .docx and .pdf extensions.
