

CPST 242 Design for the Web

INSTRUCTOR INFORMATION

Instructor Name: Christopher Fulton

Instructor Email: cfulton@luc.edu

Online Office Hours: All appointments are available upon request, allowing for greater flexibility. If you would like to schedule an individual session, please email me. Additionally, the last 30 minutes of each class session will be dedicated to addressing questions, ideas, and concerns.

COURSE INFORMATION

Course Start Date: 08/17/2026

Course End Date: 10/10/2026

Course Meeting Times: Mondays 6 PM – 8:30 PM

Course Location: This is an 8-week, fully online synchronous course via Zoom. The Zoom link can be found in Brightspace. The dates we will meet are listed under the Attendance section of this syllabus.

Course Website: Brightspace is a learning management system where all of our course material will be hosted. All lecture slides, assignment write-ups, course content, and learning material will be posted in Brightspace. The link below will take you to this semester's course site.

<https://brightspace.luc.edu/d2l/home/16776>

Course Description and Learning Outcomes:

This course prepares students to develop webpages through a study of Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), Usability principles and Design principles. This course will teach students to plan, design, and construct webpages to work properly in modern web browsers, conforming to web standards while following best practices.

Outcomes: Students will be able to: identify graphic design principles that relate to web design, develop webpages with HTML; style webpages with CSS; design and implement wireframes and mockups for websites.

Course Objectives:

Upon successful completion of this course, students will be able to:

- I. Utilize software tools needed for creating web pages.
- II. Explain the syntax of HTML and CSS.
- III. Differentiate among the functions of HTML, CSS and JS as web languages.
- IV. Create web pages using HTML, CSS, and other technologies.
- V. Integrate color, graphics, fonts and animation into web pages.
- VI. Design wireframes and mockups for websites.
- VII. Implement responsive design
- VIII. Use client-side scripts to modify web page layout, styles, and content.

PRE/COREQUISITE COURSE(S)

N/A

OPTIONAL TEXTBOOK

For this course, optional reading will be assigned each week.

The book can be accessed through our school's library website. Listed below are details regarding the book and a direct link to access the eBook once authenticated using your Loyola credentials.

- Book Title: Learning Web Design, 6th Edition, Author: Jennifer Robbins
- URL to Directly access the book: <https://learning.oreilly.com/library/view/learning-web-design/9781098137670/>

LEARNER SUPPLIES

Listed below is a list of items you will need for our course:

- **GitHub Account** - Your GitHub Account will host your assignments and labs for the course. During the first week of class, we will walk through how to create a GitHub account and publish your work.
- **Internet Access and Google Chrome browser** - Access to high-speed internet is critical and essential for our weekly online synchronous sessions. In addition to internet access, you will need to have the Google Chrome browser installed. You can find more information about the browser installation at the link below
 - <https://www.google.com/chrome/downloads/>
- **Reliable Computer and Webcam** - Due to our course being online and technical in nature, it is expected that your computer will have the specifications to handle installing software and the ability to utilize a webcam.

GRADING SCALE

Letter Grade/Percentage Equivalents for SCPS:

A 100% - 95%	B 86% - 88%	C 77% - 79%	D 65% - 70%
A- 92% - 94%	B- 83% - 85%	C- 74% - 76%	F <65%
B+ 89% - 91%	C+ 80% - 82%	D+ 71% - 73%	

GRADING RATIONALE

- Assignments = 33.33% of final grade | 4 Assignments (25 points each)
- Quizzes/Participation = 20% | 6 Quizzes (10 points each)
- Lab Activities = 26.66% | 4 Lab Activities (20 total points)
- Exams = 20% | 1 Final Exam (60 Points)

Total possible points: 300

FORMATIVE ASSESSMENT

Quizzes, Labs, Course Readings, Extra Credit Opportunities

SUMMATIVE ASSESSMENT

Assignments, Final Exam

SCHEDULE

Session	Course Outcome(s)	Topics/Reading	Assessment(s)
Week 1 8/17	CO I	Introductions and syllabus review; Development Environment, File Structure, and Tools; GitHub Submission Optional Reading: Learning Web Design 6th Edition Chapters 1 - 3	Lab 1 Released – 10pts
Week 2 8/24	CO II	Introduction to HTML5 and CSS3 Optional Reading: Learning Web Design 6th Edition Chapters 4 - 7	Assignment 1 Released – 25pts Lab 1 Due (8/30 @ 11:59pm)
Week 3 8/31	CO II, CO III	Introduction to HTML5 and CSS3 Optional Reading: Learning Web Design 6th Edition Chapters 8, 9, 10	Lab 2 Released – 10pts Assignment 1 due (9/6 @ 11:59pm) FreeCodeCamp Extra Credit HTML5 due (25 points)
Week 4 9/7	CO V, CO VI	Usability, Accessibility, Wireframe, and Prototype; Color Typography, Graphics Strategy Optional Reading: Learning Web Design 6th Edition Chapters 11, 12, 13	Assignment 2 Released - 25pts. Lab 2 Due (9/13 @ 11:59pm)
Week 5 9/14	CO IV	Page Layout and Design Strategy - Box properties, Traditional Float, Web Forms, CSS Flexbox Optional Reading: Learning Web Design 6th Edition Chapters 15 and 16	Lab 3 Released - 10pts Assignment 2 due (9/20 @ 11:59pm) FreeCodeCamp Extra Credit Computers due (25 points)
Week 6 9/21	CO IV, CO V	Page Layout and Design Strategy Cont. - CSS Grid, Understanding Animation & Transitions Optional Reading: Learning Web Design 6th Edition Chapters 17 and 18	Assignment 3 Released - 25pts Lab 3 Due (9/27 @ 11: 59pm)
Week 7 9/28	CO VII, CO VIII	Implementing Responsive Design; Peer Review and Feedback Optional Reading: Learning Web Design 6th Edition Chapters 19	Assignment 4 Released - 25pts Lab 4 Released - 10pts Assignment 3 due (10/4 @ 11:59pm)

			FreeCodeCamp Extra Credit CSS due (25 points)
Week 8 10/5	CO VIII	JavaScript Overview, Front-end Libraries, and Accessibility Checker tools	Assignment 4 due (10/11 @ 11:59pm) Lab 4 due (Due during class) Final Exam (10/7 during class)

ATTENDANCE

Attendance and active participation are required for all synchronous class sessions. All required sessions are listed below.

- August 17, 2026, 6 pm – 8:30 pm
- August 24, 2026, 6 pm – 8:30 pm
- August 31, 2026, 6 pm – 8:30 pm
- September 7, 2026, 6 pm – 8:30 pm
- September 14, 2026, 6 pm – 8:30 pm
- September 21, 2026, 6 pm – 8:30 pm
- September 28, 2026, 6 pm – 8:30 pm
- October 5, 2026, 6 pm – 8:30 pm

SUCCEEDING IN THIS CLASS

As the instructor, my job in this class is to organize the material coherently, give helpful lectures, provide a framework that combines enough challenge and support for success, and grade reasonably. A reasonable academic expectation is that you spend 3 hours outside of class for every hour spent in class. For a few of your assignments, you may go over this time estimate.

- Complete the assigned reading and review material before each class session.
- Take notes and participate in all learning/coding activities found in the slide presentations
- Complete labs and assignments to the best of your ability

LATE WORK POLICY

All assignments must be submitted by the due date and time listed on the assignment. If the assignment is not turned in by the due date and time listed, the assignment will not receive points and will be assessed a zero for the assignment.

Students can receive up to 2 consecutive days beyond the original due date if the instructor is notified by the student that an extension is needed prior to the due date listed on the assignment. Once the extension expires, the assignment will automatically receive a zero for the assignment if not submitted within 2 consecutive days beyond the original due date. Assignment extensions will not be permitted if the instructor is notified after the assignment's due date. All labs and exams must be submitted by the due date and time.

No exceptions will be made for quizzes and exams unless explicitly stated otherwise.

ACADEMIC INTEGRITY + PLAGIARISM

Cheating, plagiarism, and any other forms of academic dishonesty will not be tolerated.

This course will follow the standards outlined by the institution. The link below outlines each standard and sanctions for academic misconduct. Once you navigate to the webpage below, click on the "Academic Integrity" tab to review standards and sanctions.

<https://catalog.luc.edu/academic-standards-regulations/undergraduate/>

ACCOMMODATIONS

Loyola University Chicago provides reasonable accommodations for students with disabilities. Any student requesting accommodations related to a disability or other condition is required to register with the Student Accessibility Center (SAC). Professors will receive an accommodation notification from SAC, preferably within the first two weeks of class.

Students are encouraged to meet with their professor individually in order to discuss their accommodations. All information will remain confidential.

Please note that in this class, software may be used to audio record class lectures in order to provide equal access to students with disabilities. Students approved for this accommodation use recordings for their personal study only and recordings may not be shared with other people or used in any way against the faculty member, other lecturers, or students whose classroom comments are recorded as part of the class activity. Recordings are deleted at the end of the semester.

For more information about registering with SAC or questions about accommodations, please contact SAC at 773-508-3700 or SAC@luc.edu.
